

# Hunter Tools

5 IN 1 5 tools in 1 convenient package. Ideal for technician, trade and production use. Convenience, versatility and durability all in 1. 8 1/2" long.

5 in 1 Multipurpose Tool  
25504(c)(55A)

\$7.95

**CRIMPER** Handles all popular solderless terminal types including non-insulated, insulated for #10 through #24 wire, 7MM automotive ignition.

**PLIER** Needle nosed and serrated. For gripping, bending and pulling.

**STRIPPER** 6 wire stripping holes out front where the work is. Hand ground for size and sharpness. Ideal for stripping AWG solid wire in gauges #12 - #22 and stranded wire #14 - #24.

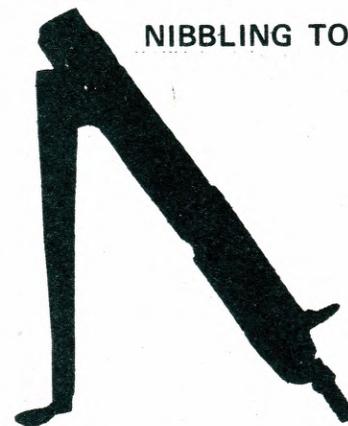

**CUTTER** Out front and easy to use. Shear cut style accommodates variety of wire sizes. High leverage action makes cutting easy and reduces fatigue. Cutting edges are hand ground to insure close tolerances.

**SCREW CUTTER** Cuts 6 most common screw sizes found in electrical and lugging operations. 4-40, 5-40, 6-32, 8-32, 10-32, 10-24.

**HANDLE** Heavy plastic sleeve provides cushion grip. Reduces fatigue in production and other high volume applications.

This Nibbling Tool is perfect for cutting, trimming, or notching sheet metal up to 18 guage.

It operates like a punch and die and also works well on aluminum or plastic up to 1/16" thick. We feel that this tool can be a real time-saver for our customers when working on chassis, printed circuit boards and prototype model parts.

## NIBBLING TOOL

Nibbling Tool \$7.95  
Replacement Punch \$3.75 Each

### LONG NOSE PLIERS

STANDARD WIRE BENDING, FORMING AND HOLDING TOOL.

STOCK NO.	1	10
20208	\$6.09	\$5.44

### MINIATURE LONG NOSE CURVED SMOOTH JAW

CURVED NOSE GETS INTO THOSE TIGHT SPOTS. PARTICULARLY SUITED TO P.C. BOARD REWORK.

STOCK NO.	1	10
21029	\$9.23	\$8.25

### NEEDLE NOSE SUPER THIN

SMOOTH JAWS, RADIUS EDGED FOR PRECISION BENDING, REACHING, CLAMPING AND FORMING.

STOCK NO.	1	10
20114	\$7.54	\$6.74

### MINIATURE SMOOTH JAW LONG NOSE

FOR EXTRA FINE WORK. FOR BENDING, FORMING OR HOLDING DELICATE PARTS AND ASSEMBLIES

STOCK NO.	1	10
20144	\$8.40	\$7.51

### FULL FLUSH CUTTER REGULAR JAW

FOR #24 (.020") OR SMALLER COPPER WIRE. IDEAL FOR SHAVING SOLDER AND CUTTING LEADS IN PRINTED CIRCUIT

STOCK NO.	1	10
20199	\$8.82	\$7.88

### FULL FLUSH CUTTER TAPERED JAW

MINIATURE SLIM TAPERED NOSE DESIGN BUT WITH THIN GROUND BACK FOR CLEARANCE IN CONFINED AREAS. DESIGNED FOR #24 (.020") OR SMALLER WIRE.

STOCK NO.	1	10
20192	\$9.78	\$8.73

**STRIPPER AND CUTTER** Similar to #25508 but without return spring. A high quality economy tool to do the job.

Stripper and Cutter no spring  
\$2.50 | 25506(c) (55B)

### COMBO LONG NOSE PLIERS SIDE CUTTER

TWO HANDY TOOLS IN ONE. WITH 1/2" CUTTING BLADE PREFERRED IN INDUSTRY AND BY TECHNICIANS

STOCK NO.	1	10
20261	\$7.54	\$6.74

### DIAGONAL CUTTER HEAVY DUTY GENERAL PURPOSE

NARROW JAWS FOR USE IN CONFINED AREAS.

STOCK NO.	1	10
20294	\$7.19	\$6.42

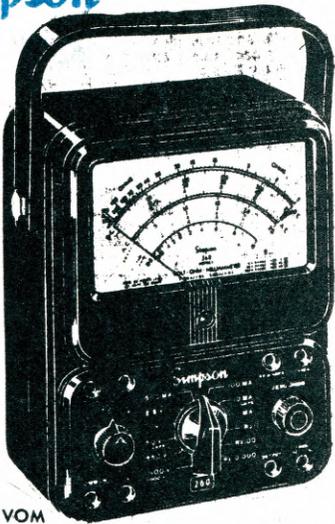

**ELECTRICIANS THIN BLADE** (Cabinet Tip) Favored by electrical and electronic craftsmen where clearance and precision are a factor. Tips are exact width of blade.

#### CABINET STYLE

Part No.		Blade D" x L"	Handle D" x L"
30340*	\$1.25	3/32 x 3	5/8 x 2-1/4

30330(c)	2.10	3/16 x 4	1 x 3-3/4
30332(c)	2.25	3/16 x 6	1 x 3-3/4
30334	2.05	3/16 x 8	1 x 3-3/4
30336	2.99	3/16 x 10	1 x 3-3/4

# Simpson

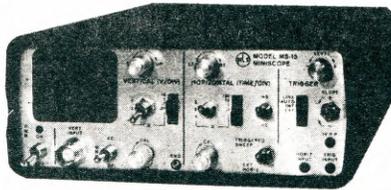

260-6  
260 SERIES VOM

**Model 260-6** Volt-Ohm-Milliammeter. Features a varistor protected rugged taut-band movement. Multi-purpose screw-on test leads with combination probe and alligator clips. Requires only two batteries: one 9-volt NEDA 1604 and one 1.5-volt "D" cell NEDA 13F. **Batteries supplied.** Polarity reversing switch allows faster, more convenient DC measurement. Full-wave bridge rectifier provides accurate AC voltage measurements. **Specifications**—20,000 ohms/volt DC, 5000 ohms/volt AC, Scale length: 4.2", Dimensions 5 1/2" x 7" x 3". **Ranges**—DC volts: 0-0.25; 0-1; 0-2.5; 0-10; 0-50; 0-250; 0-500; 0-1000. AC volts: 0-2.5; 0-10; 0-50; 0-250; 0-500; 0-1000. DC microamperes: 0-50 (250 mV drop). DC milliamperes: 0-1; 0-10; 0-100; 0-500. DC amperes: 0-10 (250 mV drop). DB scale (1 mW 600 ohm reference): -20 to -10; -8 to -22; -6 to -36; -20 to -50. Resistance: Rx1; Rx100; Rx10K. With batteries, test leads and manual included. **62F300. NET \$89.95**

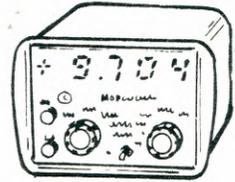

## SCOPES & DVM'S

### MS-15 MINISCOPE \$289

With Rechargeable Batteries & Charger Unit

- 15 megahertz bandwidth.
- External and internal trigger.
- Time base — .1 microsec. to 0.5 Sec/div - 21 settings ± 3%.
- Battery or line operation.
- Automatic & line sync modes.
- Power consumption < 15 watts.
- Vertical Gain — .01 to 50 V/div - 12 settings ± 3%.
- Viewing area 1.1" x 1.35".
- Case size 2.7"H x 6.4"W x 7.5"D, 3 pounds.
- Parts & Labor guaranteed 1 year
- 10 to 1, 10 meg probe ..... \$24.50
- Leather carrying case ..... \$30.00

- LM3A 3 dig 1% DC ..... \$125.
- LM3.5A 3 1/2 dig .5% DC ..... \$147.
- LM40A 4 dig .1% DC ..... \$190.
- LM4A 4 dig .03% DC ..... \$227

- Rechargeable batteries and charger included
- Measures DC Volts, AC Volts, Ohms and Current
- Automatic polarity, decimal and overload indication
- Rechargeable batteries and charger
- Measures DC Volts, AC Volts, Ohms and Current
- Automatic polarity, decimal and overload indication
- No zero adjustment and no full-scale ohms adjust
- Battery-operated — NiCad batteries; also AC line operation.
- Large LED display for easy reading without interpolation
- Size: 1.9"H x 2.7"W x 4"D
- Parts & labor guaranteed 1 year
- Tilt stand option ..... \$ 3.50
- Leather case ..... \$16.00

## LAMPS

\$23.95 **LEDU**  
**SPECIAL**  
Model XL-334A  
Econo-Lamp

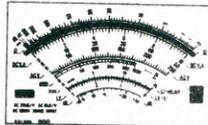

Popular low-priced lamp tubular steel, spring balanced arms; vented shade; tension control knobs; 33" reach UL listed 60 watt. Colors: Red, Yellow, Blue, Black, White, 2 choices pl.

### YX-360TR WITH hFE RANGE \$29.95

- Multifarious application — as transistor circuit analyzer with optional connector
- Wide-range measurement — minimal 0.1V DC & 0.22Ω with excellent resolution
- Series capacitor terminal (OUTPUT+) — AC signal isolation for TV servicing
- Operation security — safe switchboard arrangement

DCV 0-0.1-0.5-2.5-10-50-250-1000 (20kΩ/V) ±3%, 25k (w/HV probe)  
DCA 0-50μA 0-2.5-25mA 0-0.25A (100mV & 250mV) ±3%  
ACV 0-10-50-250-1000 (8kΩ/V) ±4%  
Freq. 30Hz to 30kHz  
Ω x1 x10 x1k x10k (max. 20M)  
Batt. 1.5V x2 & 9V x1  
dB -10 to +62

### Combination C SERIES

Has fluorescent & incandescent lamps in one vented shade; independent or simultaneous operation, true color rendition

Colors: Baked Enamel Finishes — Gray, Black, White and Chocolate Brown for #C-10 only.  
Add Orange for #C-10 only.  
Selection of brackets, bases, floor stands, accessories available (see back page).  
Uses one 60 watt bulb and one 22 watt T-9 Circline tube  
Shipping weight with bracket: 8 lbs. Four to a master carton.  
Model #C-10, 42" reach \* Model #C-6, 34" reach \*

MODEL	Your Price
C-10A, B or C	\$75.00
C-10D	78.50
C-8A, B or C	73.50
C-8E (table base model)	89.50

### Uni-Lamp UN SERIES

Heavy gauge steel arms, spring-balanced. Vented shade, wide arc light distribution, stay-put positioning; 2 tension control knobs, 2-conductor cord.

Colors: Baked Enamel Finishes — Blue, Avocado, Red, Orange, Gray, White, Black, Yellow and Chocolate.  
Selection of brackets, bases and accessories available (see back page).  
UL listed for 100 watt. Shipping weight with bracket: 5 lbs.  
Six to master carton  
Model #UN10, 40" reach \* Model #UN-8, 33" reach \*

MODEL	Your Price
UN-10A, B or C	\$38.50
UN-10D	42.00
UN-10K (table base model)	49.00
UN-8A, B or C	37.00
UN-8K (table base model)	47.50

### Fluorescent DF SERIES

Features a durable, thermoplastic resin shade that stays 20% cooler than metal shades, and is stain and crack resistant. Fully adjustable. Instant start switch.

Colors: Gray, Black, White and Tan.  
Selection of brackets, bases, floor stands and accessories available (see back page).  
Uses two 15 watt T-8 fluorescent tubes. Shipping weight with bracket: 8 lbs.  
Six to master carton.  
Model #DF-10, 40" reach \* Model #DF-8, 33" reach \*

MODEL	Your Price
DF-10A, B or C	\$64.00
DF-10D	67.00
DF-8A, B or C	62.00
DF-8E (table base model)	75.00

### Magnifier IM SERIES

Perfectly balanced fluorescent lighting with precision magnifier lens. For prof'l, techni'l, & related uses. Has die cast protective shade, instant starting.

Colors: Baked Enamel Finishes — Gray, Black, White and Chocolate Brown.  
Selection of brackets, bases, floor stands, accessories available (see back page).  
Uses one 22 watt T-9 Circline fluorescent tube. 3 diopter lens standard. 5 diopter lens optional. Shipping weight with bracket: 8 lbs.  
Six to master carton.  
Model No. IM-10, 42" reach \* Model #MG-8, 36" reach \*

MODEL	Your Price
IM-10A, B or C	\$85.00
IM-10D	88.50
IM-8A, B, C	83.50
IM-8E (table base model)	99.50

3 diopter lens — standard  
5 diopter lens — add \$10.00 to List Price.

\*"Reach" is the length from point of entry into bracket or base to center of bulb or shade.

NEW!

## UVS-11E Low Cost EPROM Erasing Lamp

\$59.95 replacement tube . . \$14.95

This is the first UV erasing system to offer simple operation and foolproof safety features at an affordable price. Like all UVP products, the UVS-11E is quality-built and backed by 45 years of UV technology.

**\$59.95**

### Simple to Use!

Just plug into the nearest outlet, load with chips and go!

### Complete With Holding Tray!

Holds up to 4 chips and maintains constant exposure distance of 1". Special conductive foam liner eliminates electrostatic build-up and protects EPROM from possible static charge build-up.

### Special UV Absorber!

Holding tray is formulated of a special material which absorbs all UV exposure. Provides protection against short wave UV while transmitting visible light.

### Exclusive Safety Interlock System!

Eliminates accidental UV exposure. Lamp will not operate unless properly seated in the holding tray. When lifted from the tray, the lamp automatically shuts off.

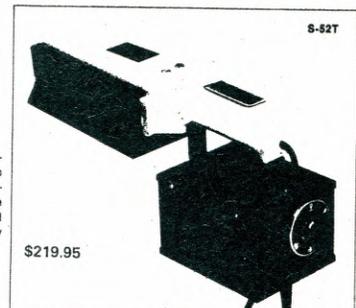

ALSO AVAILABLE,

### S-52T — THE FASTEST, MOST POWERFUL UV ERASING SYSTEM

- Unmatched intensity at 254nm
- Special formulation for ozone → UV transmittance
- Tube life in excess of 10,000 hours
- Complete erasure in minutes

This short wave powerhouse provides 3 feet of exposed, grid-formed tubing for quick erasure. It will erase up to 16 chips at one time in about seven minutes. The timer assembly provides a constant base for the lamp maintaining the tube surface at a constant height above the work surface. When used separately from the timer assembly, it is lightweight and evenly balanced for convenient hand use.

# A Z-80 BASED SYSTEM FOR A PERSONAL COMPUTER OR FULL BUSINESS SYSTEM

## Look To The North Star HORIZON Computer.

**HORIZON™** — a complete, high-performance microprocessor system with integrated floppy disk memory. HORIZON is attractive, professionally engineered, and ideal for business, educational and personal applications.

To begin programming in extended BASIC, merely add a CRT or hard-copy terminal. HORIZON-1 includes a Z80A processor, 16K RAM, minifloppy™ disk and 12-slot S-100 motherboard with serial terminal interface — all standard equipment.

### WHAT ABOUT PERFORMANCE?

The Z80A processor operates at 4MHz — double the power of the 8080. And our 16K RAM board lets the Z80A execute at full speed. HORIZON can load or save a 10K byte disk program in less than 2 seconds. Each diskette can store 90K bytes.

### AND SOFTWARE, TOO

HORIZON includes the North Star Disk Operating System and full extended BASIC on diskette ready at power-on. Our BASIC, now in widespread use, has everything desired in a BASIC, including sequential and random disk files, formatted output, a powerful line editor, strings, machine language CALL and more.

### EXPAND YOUR HORIZON

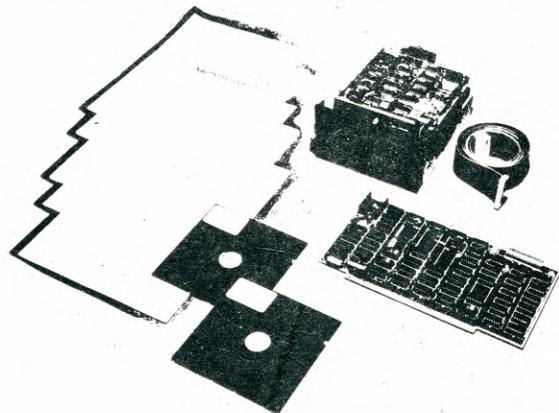

Also available — Hardware floating point board (FPB), additional 16K memory boards with parity option. Add a second disk drive and you have HORIZON-2. Economical serial and parallel I/O ports may be installed on the motherboard. Many widely available S-100 bus peripheral boards can be added to HORIZON.

### QUALITY AT THE RIGHT PRICE

HORIZON processor board, RAM, FPB and MICRO DISK SYSTEM can be bought separately for either Z80 or 8080 S-100 bus systems.

HORIZON-1 \$1599 kit, \$1899 assembled.  
HORIZON-2 \$1999 kit, \$2349 assembled.

16K RAM — \$399 kit, \$459 assembled. Parity option \$39 kit, \$59 assembled. FPB \$259 kit, \$359 assembled. Z80 board \$199 kit, \$259 assembled. Prices subject to change. HORIZON offered in choice of wood or blue metal cover at no extra charge.

## COMPLETE FLOPPY DISK SYSTEM FOR YOUR ALTAIR/IMSAI

~~\$699~~ **\$599\***

That's right, complete.

The North Star MICRO-DISK SYSTEM™ uses the Shugart minifloppy™ disk drive. The controller is an S-100 compatible PC board with on-board PROM for bootstrap load. It can control up to three drives, either with or without interrupts. No DMA is required.

No system is complete without software; we provide the PROM bootstrap, a file-oriented disk operating system (2K bytes), and our powerful extended BASIC with sequential and random disk file accessing (10K bytes).

Each 5" diameter diskette has 90K data byte capacity. BASIC loads in less than 2 seconds. The drive itself can be mounted inside your computer, and use your existing power supply (1.8 amp at 5V and 1.6 amp at 12V max). Or, if you prefer, we offer a power supply (\$39) and enclosure (\$39).

Sound unbelievable? See the North Star MICRO-DISK SYSTEM at your local computer store. For a high-performance BASIC computing system, all you need is an 8080 or Z80 computer, 16K of memory, a terminal, and the North Star MICRO-DISK SYSTEM. For additional performance, obtain up to a factor of ten increase in BASIC execution speed by also ordering the North Star hardware Floating Point Board (FPB-A). Use of the FPB-A also saves about 1K of memory by eliminating software arithmetic routines.

Included: North Star controller kit (highest quality PC board and components, sockets for all IC's, and power regulation for one drive), SA-400 drive (assembled and tested), cabling and connectors, 2 diskettes (one containing file DOS and BASIC), complete hardware and software documentation, and U.S. shipping.

NORTH STAR COMPUTERS

**TEI** INC.

### The motherboard

An S-100 Bus system high quality motherboard with 100-pin edge connectors. Compatible with IMSAI, MITS, CROMEMCO, TDL and other S-100 bus configured circuit boards. Plug connections for reset switch. Voltage terminals are screw type to power supply leads. All card guides are provided. 12 slots for MCS-112 model and 22 slots for MCS-122 model.

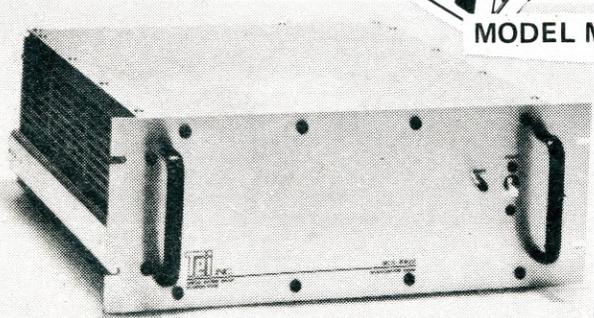

### Edge connectors

High quality edge connectors factory mounted and wave soldered to eliminate this nuisance for you. Completely checked out for shorts or open traces. ALL edge connectors furnished, 12 for the MCS-112 and 22 for the MCS-122. No additional expense when you expand your system.

### The power supply

One of a kind... using a constant voltage transformer (CVT) with a very high immunity to input line noise... greater than 100 db rejection. Line regulation better than ± 1% from an input of 95 to 140 Volt AC at full load to 85 to 140 Volt AC at three quarter load. Designed to meet UL-478 specifications (EDP SPECS). Individual fusing on all input and output voltage lines. See specifications below for power ratings.

**MODEL MCS112 \$395.00**

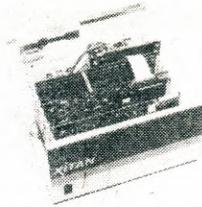

**MCS-RM12 (12 Slot Ruggedized S-100 card cage rack mount) \$545.00**

**TECHNICAL  
DESIGN  
LABS**

**TDL COMBINES THEIR RECOGNIZED  
LEADERSHIP IN SOFTWARE  
WITH THE MOST COMPACT  
HARDWARE DESIGN YET.**

**ONLY \$769.00**

**XITAN**  
alpha 1

When we combined our highly praised ZPU board and our System Monitor Board, we defined the standard for the industry; we integrated more power and flexibility in two slots of our motherboard than most other systems can muster using five or more boards. When we put this setup into our rugged aluminum case we created the first XITAN system, the alpha 1. By adding a CRT terminal and/or teleprinter you will have a complete computer system.

**KIT: \$769 ASSEMBLED & TESTED: \$1039**

**XITAN**  
alpha 2

By adding a Z16 memory module and our PACKAGE A software to the alpha 1 we created a second XITAN system, the alpha 2. Thus, a complete and extremely powerful micro-computer system emerges well worthy of you who are operating at the most sophisticated levels. The XITAN alpha 2 provides you with 18K of RAM, 2K of ROM, 2 serial I/O ports, 1 parallel I/O port, our 1200 baud audio cassette interface as well as our extraordinarily powerful software package which includes 8K Basic, the Text Output Processor, the Zapple Text Editor and the Relocating Macro-Assembler. Add your own I/O device and GO...with the most powerful and flexible micro-computer package ever offered.

**KIT: \$1369 ASSEMBLED & TESTED: \$1749**

**TDL's ZPU**

**\$269**  
kit **\$345**  
Assembled

Here it is, TDL's ZPU the highest point of technology for an Altair/MSAI system. Now, you can multiply your present capabilities without creating costly obsolescence. Take advantage of the wide range of existing hardware backup for your current system. The ZPU is compatible and dependable with many plus features you'll want to know about.

The Z-80 offers you the greatest power of any micro-158 instructions, 696 opcodes, 22 registers, single voltage power requirements, and static operation allowing clock speeds from DC up to 4MHz or greater. (NOTE: Zilog is not yet certifying Z-80 operation above 2.5 MHz. Most Z80s operate up to 4MHz. When certifies 4MHz parts are available they will be included in the ZPU.)

**the Z-80 System Monitor Board  
\$295 Kit \$395 Assembled**

This single board, in conjunction with your processor and memory, provides all the support that your system needs to get up and running in a sophisticated but easy to use configuration.

Using other boards to duplicate the functions of the System Monitor Board isn't easy — it requires at least 4 other boards, several hundreds more dollars in cost, and a good bit of expertise to create an equivalent fully integrated operating system. The System Monitor Board does it for you.

**Z16—the most advanced memory module  
available / 16K for \$574 Assembled \$674**

It is loaded with more features and more versatility than any other memory on the market... at a price that makes it a real bargain. TDL has the fastest and lowest power static ram boards going. Full 16K memory on one card.

**Z8K — 8K for \$332.00 Assembled \$433.00**

**ONLY \$369.00**  
Assembled

**Software - TDL's user support program is unmatched in the micro industry**

**Zapple Monitor** P/T 25.00 Cassette 20.00

Designed to allow the user the maximum versatility and system executive control. It is capable of supporting 4 logical devices (Console, Reader, Punch and List Device) each of which supports 4 alternate I/O devices including N number of user defined devices. The reader and punch may be any device - cassette, memory, disk, etc.

It is also efficient, providing 27 commands (3 of which are user defined) while occupying only 2K of core. Additionally, ZAPPLE is relocatable, romable, and expandable due to its modular organization. The documentation includes the complete source listing as well as a comprehensive user guide.

**Text Editor** P/T 35.00 Cassette 30.00

A most versatile tool for both the programmer and the word processor.

Both line and character oriented; it features an internal pointer that can be moved through the text line by line and character by

character. Wherever the pointer is located, both characters and lines may be inserted, deleted or changed at will, in both forward and backward directions.

Like all TDL software, the Zapple Text Editor is relocatable, uses either the Zap or Zapple Monitors for its I/O handling, and is supplied on paper tape complete with a user guide.

**Text Output Processor** P/T 50.00 Cassette 40.00  
**A WORD-PROCESSOR for the Z-80 system. It occupies 3K of core. It is used in conjunction with the Text-Editor and Monitor to provide a POWERFUL word-processing capability.**

The Processor has numerous commands which you simply enter into the text while you are editing. Then, you take the output of the editor, run it through the Processor, and its output will be formatted EXACTLY as you have commanded.

The variety of possible applications for this sort of word processing power are, limited only by your imagination.

**Macro-Assembler** P/T 50.00 Cassette 40.00

TDL's relocating macro-assembler is by far the most sophisticated programming tool yet developed for a micro-processor. In

terms of number of functions, scope of abilities, and usefulness, it has no comparison.

**Zapple Basic** P/T 50.00 Cassette 40.00

Here's something you've been waiting for — Zapple Basic! It can hold its head up among the finest Basic interpreters ever written — backed by the speed and power of the Z-80. And it works...

Zapple Basic occupies 8K of core and utilizes the I/O handling of the Zap or Zapple Monitor routines. Therefore you get unequalled I/O handling versatility and a large degree of hardware independence. Of course, Zapple Basic is relocatable — so you can load it anywhere in memory. (Minimum loading address 200 hex - to allow a fixed buffer from 100H to 1FFH.)

**Super Basic** P/T 95.00 Cassette 79.00

One of the latest additions to the fantastic software offerings by TDL is their new Z-80 SUPER-BASIC. This is a powerful 12K Basic Interpreter which has all the features of ZAPPLE 8K BASIC and many more.

# Introducing Apple II,<sup>™</sup> the personal computer.

DISCOUNT PRICE

**\$896** w/4K

DISCOUNT PRICE

**\$1198** w/16K

Apple II is a complete, self-contained, ready to use computer. Standard features include BASIC and Monitor in ROM (8K bytes), Color Graphics, up to 48K bytes RAM (4K included), cassette interface, Apple GAME I/O connector, typewriter-style ASCII keyboard, high-efficiency switching power supply and plastic molded case. Also included as standard are: 1 demonstration cassette tape, and detailed operations manual.

## MICROPROCESSOR:

6502 operating at 1 MHz clock.

## VIDEO DISPLAY

The Apple II video display section displays memory as either text, color graphics, or high-resolution graphics (completely transparent memory access). Both graphics modes can be selected to include 4 lines of text at the bottom of the display area. All display modes are software selectable. In addition, the user can select under software one of two memory blocks to be displayed.

### Text

- 40 characters/line, 24 lines.
- 5 x 7 upper case characters.
- Normal, inverse or flashing characters.
- Extensive display control software in ROM.
- Full cursor control.
- Fast display — 1000 cps.

### Color Graphics

- 40h x 48v resolution or 40h x 40v with 4 lines text.
- 15 colors — color generated digitally.
- BASIC commands to use graphics easily: COLOR=, PLOT x, y, HLN, VLN SCRN.

### High Resolution Graphics

- 280h x 192v resolution or 280h x 160v with 4 lines text.
- 4 colors — black, white, violet, green.
- Displays 8K bytes (requires 12K minimum RAM).

## MEMORY

RAM is organized into 3 increments. Each increment can be either 4K bytes using 4K chips or 16K bytes using advanced 16K chips. Memory may be easily increased by inserting an additional increment of chips. From 4K to 48K bytes of RAM can be contained on the single board. 8K bytes of ROM are supplied which permanently store Apple BASIC (6K) and a powerful system monitor (2K). Two additional ROM sockets are provided for future Apple software.

- Up to 48K bytes on-board RAM — no peripheral memory boards!
- Unique automatic RAM refresh system, completely transparent.
- Uses 4096, 2104 type 4K and 4116, 2116 type 16K RAMs.
- Fast memory — 350ns access time.

## COMPU/TIME CT 100

COMPU/TIME offers

**A**  
Real Darn Clever  
Enhancement to users of  
IMSAI/ALTAIR Microprocessors

S100 BUS COMPATIBLE

## TIME & CALENDAR

Microprocessors need the power that a real-time clock can offer. Date and time becomes instantly available. **COMPU/TIME** does not have to be initialized every time the system is powered up. It possesses a crystal-controlled time base to obtain superior accuracy and has two settable coincidence counters. Time, date, and counters are set via software. **COMPUTATIONAL FUNCTION**

Microprocessors need to be complimented by hardware arithmetics to free up memory pages dedicated to floating point routines and mathematical software. **COMPU/TIME** provides a 40 function calculator array so that algebraic, trigonometric, basic arithmetic problems can be solved without the need of developing sophisticated software.

### TECHNICAL SPECIFICATIONS Z-2 COMPUTER SYSTEM

**Processor:** 4 MHz version Z-80  
**Cycle time:** 250 nanoseconds  
**Minimum instruction execution time:** 1 microsecond  
**Instruction set:** 158 instructions including the 78 instructions of the 8080  
**System bus:** industry standard S-100  
**Board capacity:** 21 boards  
**Power supply:** +8 volts @ 30A, +18 volts @ 15A, -18 volts @ 15A  
**Power:** Operates from 110/220 volts; 50/60 cycles.  
**Operating environment:** 0-55°C  
**Dimensions:** 12 1/4" H x 19" W x 20 3/4" D (31.1 x 48.3 x 52.7 cm)  
**Weight:** 39 lbs (18 kg)  
**Mounting:** For rack mounting (optional bench cabinet available)

Price: Z-2 kit        \$595  
 Z-2 Assembled    \$995

This new Cromemco Z-2 Computer System provides the engineer, businessman, educator or experimenter with the industry's fastest and most powerful micro-computer in an economical package for dedicated work.

The Z-2 makes available Cromemco's fast Z-80 micro-processor card and a 21-card motherboard in a form such that an almost endless variety of memory, I/O and other peripherals can easily be plugged in — thereby forming a computer tailored to your particular job whether in the laboratory, on the production line, or in an educational time-sharing setup.

#### Z-2 System

Here are some of the leading features you get in the new Cromemco Z-2 Computer System:

- The industry's fastest  $\mu$ P board (4 MHz or 250-nanosecond cycle time).
- The power and convenience of the well-known Z-80 microprocessor chip.
- A full-length shielded motherboard with 21 card slots to let you plug in almost any conceivable combination of memory, I/O, or your own custom circuits.
- An extremely heavy duty power supply providing 30A from +8V and 15A from +18 and -18V. This will not only power a full set of 21 cards but also has ample additional power for other peripherals such as a floppy disk drive.
- Power-on jump circuitry to begin automatic program execution when power is turned on.
- S-100 bus — important because it is widely supported by a host of peripherals manufacturers. Thus you get the widest possible array of compatible peripherals.
- All-metal chassis and dust case.
- Card retainer that secures cards in sockets.
- Standard rack-mount style construction suited to dedicated applications. Upward compatible with larger systems. Usable with a variety of cabinets. Bench cabinet optional.
- 110 or 220-volt operation.

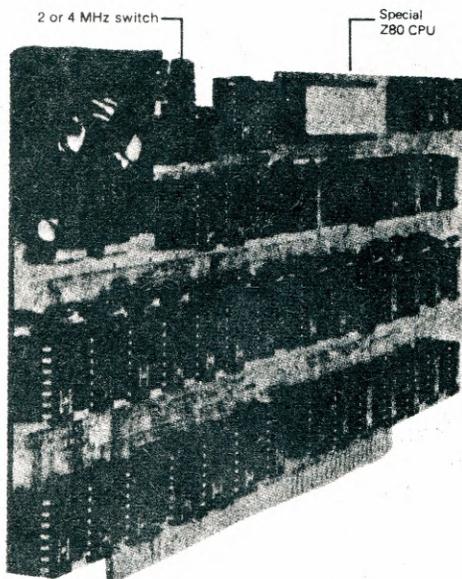

#### Rack/Cabinet mounting

The basic Z-2 is supplied in a black-anodized metal case for mounting in a standard 19-inch relay rack. A quality stylized bench cabinet in an attractive blue color is also available.

\$195

## 4 MHz CPU card

- Uses special Z80 microprocessor
- Fast—4 MHz clock rate
- Does not require front panel for operation

Z80-CPU kit        \$295  
 Z80-CPU assembled \$395

#### ALTAIR/IMSAI COMPATIBLE WITHOUT MODIFICATION

Yes, the new CPU is plug-compatible with the Altair 8800 and IMSAI 8080. Just remove the existing CPU, plug in the Z80/CPU, and you're up and running.

#### INCLUDES FREE SOFTWARE

The CPU comes with our powerful Z-80 monitor, complete documentation, source code, and paper tape object code. The monitor is also available in PROM (\$50) for use in our BYTESAVER or 16 KPR memory boards.

#### TECHNICAL

**PROCESSOR:** 4 MHz version of the Z-80.  
**CLOCK RATE:** 2/4 MHz (switch selectable).  
**INSTRUCTION SET:** 158 instructions including the 78 instructions of the 8080.  
**POWER-ON JUMP:** jumper wire enabled.  
**POWER-ON JUMP LOCATIONS:** 16 locations switch selectable.  
**WAIT STATE GENERATION:** 0-4 wait states jumper wire selectable.  
**M1 WAIT STATE:** jumper wire selectable.  
**BUS:** S-100.  
**POWER REQUIREMENTS:** +8 volts @ 1.1 A.  
**OPERATING ENVIRONMENT:** 0-55°C.

• **BASIC.** Cromemco 3K Control BASIC is a compact interger-only BASIC interpreter designed specifically for microcomputer control applications. Control BASIC allows the user to read and write specific memory and I/O locations and call machine language subroutines. There are 36 commands and functions available:

CALL	NEXT	TO
EPROM	NULL	WIDTH
FOR	OUT	ABS
GOTO	PRINT	AND
GOSUB	PUT	GET
IF	QUIT	IN
INPUT	RETURN	LOC
LET	REMARK	OR
LIST	RUN	RND
LOAD	SAVE	SIZE
LOCK	STEP	SGN
NEW	STOP	XOR

Control BASIC requires 3K of memory space beginning at location E400. It is available on paper tape (Model CB-PT) or in 3 2708 PROMs (Model CB-308).

Model CB-PT paper tape . . . . . \$15

Model CB-308  
 in 3 2708 PROMs . . . . . \$150

• **MONITOR.** The Cromemco Z-80 Monitor is a powerful tool for use in software development. It allows the user to examine and alter register and memory contents, set program break points, move blocks of memory, program PROMs (using the Cromemco BYTESAVER), and read and punch paper tapes — all under keyboard control.

There are 12 Monitor commands:

DSPM	READ	MOV
DSPR	WRIT	OUT
SUBM	GO	PRGM
SUBR	GO (breakpoints)	VRFY

The Monitor resides in memory space from E000 to E3FF and is available on either paper tape (Model ZM-PT) or in one 2708 PROM (Model ZM-108).  
 Model ZM-PT paper tape . . . . . \$15

Model ZM-108 in 2708 PROM . . . \$50

• **ASSEMBLER/RESIDENT OPERATING SYSTEM.** The Cromemco assembler and resident operating system allows the user to create and edit Z-80 source code, assemble the source code, and create object code files. There are 43 operating system commands:

CFIL	NFOR	WBIN	ENTE	PSTA
LFIL	AUTO	RBIN	MOVE	STAB
CURR	RENU	WCBN	VMEM	ASMB
DFIL	DELE	ECBN	PRAM	ASMC
VFIL	LIOD	RCBN	BANK	ASMU
MFIL	IODR	WCHX	ECUS	EXEC
LIST	DIOD	ECHX	LCUS	PROM
TEXT	SYSI	RCHX	DCUS	
FORM	LEAD	DUMP	RENA	

The assembler/resident operating system resides in memory space from address A000 to BFFF. It is available on paper tape (Model ZA-PT) or in 8 2708 PROMs (Model ZA-808).  
 Model ZA-PT paper tape . . . . . \$30

Model ZA-808  
 in 8 2708 PROMs . . . . . \$400

Plus... wireless transmitter... electric organ... basic binary computer... in fact, 150 electronic devices you can build yourself! The EX-150 from Denshi-Gakken.

We are surrounded by electronic marvels most of us know little about. Computers, television, radio... the list is endless. If you've long been intrigued by electronics—or have a school-age youngster eager to learn—the Denshi-Gakken EX-150 could be the first step toward a lifelong fascination with this all-important science. Containing all the materials necessary to perform 150 ingenious and exciting experiments, the kit is a working electronics laboratory. And, quite possibly, the finest electronics teaching aid now available.

**Ideal for Home or Classroom**  
As you can see, the EX-150 is not a toy, but a superb learning tool. Made with the same high-quality materials as the finest electrical products and ruggedly constructed, it is ideal for home or classroom use. The tough plastic casing contains a built-in antenna, speaker, volume control, IC amp meter, and photoelectric cell. Also included are a microphone, earphone and antenna wires. There is nothing else to buy. The 58-piece kit, complete with 158-page easy-to-follow instruction manual, is \$74.95.

With the EX-150, you can create the devices mentioned above, plus...

- A transistor radio operated by light.
- An organ that works on the same principle as the Moog (TM) synthesizer.\*
- An electronic bird.
- A sphygmometer to measure the pulse of blood—and many others.

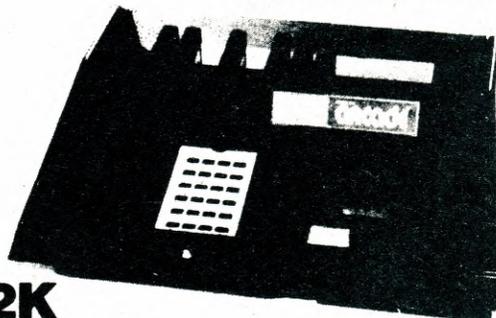

Projects range from simply lighting a bulb to creating complex photoelectric circuitry. You advance at your own pace. You need no prior knowledge, no additional equipment to enjoy the EX-150. The kit includes a safe battery-powered circuit board with 50 snap-in components: transistors, resistors, diodes, coils, capacitors and transformers. Each component is in a transparent plastic cube, clearly marked with standard electronic symbols, and fits easily into the circuit board. The kit is absolutely safe—there is never a need to solder or splice. Therefore, all projects can be built and dismantled over and over again.

A Set for Every Age Level!  
Additional Components Available:

There is no upper age limit for those who can enjoy and learn from the EX-150. However, for younger children, simplified kits are also available at correspondingly lower prices. These kits can be up-graded by adding additional components later.

Kit #	Experiments	Pieces	Age Level	Price
EX-150	150	58	12-Adult	\$74.95
EX-100	100	43	8-16	52.95
EX-30	30	38	8-12	36.95

### Bally Professional Arcade™

12K Computer only

\$299.95 POSTPAID

#### Expandable

• 48K. Full keyboard and display at an unbelievably low price.

In the third quarter a \$350 expansion package is scheduled. Preliminary specifications include: Full Basic and assembly language. Provision for 2 audio cassette drives. Graphics and Music. Additional 16K RAM. Additional ROM. Industry standard keyboard. 25 x 80 characters with monitor. IEEE port. Price, delivery, and specifications subject to change without notice. Future contemplated options include printers, acoustic coupler, temperature and light control, telephone dialers, disks, Selectric interfaces, digital tape decks and, of course, extensive software.

#### Software

Includes the most popular selections from Bally's professional arcade games, educational programs for the entire family, and functional programs for home, business and the arts. NCE 10 day return privilege applies to Bally Videocade™ of course. Videocade™ series includes: STRATEGY — \$19.95 each • Black Jack • Draw Poker • Aovy • Deucey • SPORTS — \$24.95 each • Baseball (available now) • Tennis • Hockey • Baseball • EDUCATION — \$19.95 each • Bingo Math (available now) • Speed Math • Word Math • Word Hunt • Scramble • ACTION SKILL — \$19.95 each • 280 Zzzzap (available now) • Dodgem • Sea Wolf • Bombarrier • Panzer Attack • Red Baron. OTHERS coming every month.

Order today and get all this for \$299.95

The processing power of the Z-80 is multiplied 5 to 10 fold by custom NIMOS chips containing the equivalent of 600 SSI and MSI IC's. The Bally Arcade™ comes with all these features: 5 function, 10 memory calculator; Gunfight, Checkmate, Scribbling games with color, action, and sound; 24 key keyboard; 4 pistol grip control handles; connects to black and white or color TV set; 16,000 dot picture image (vs. closer to 4,000 for most other video games); 1 year limited warranty NCE and Bally service depots.

#### Get Tiny Basic FREE!

One of the optional ROM cassettes for the Arcade is Palo Alto Tiny Basic. Includes keyboard overlay, 4K ROM cassette, and instruction booklet. Features: music, graphics and color; programs up to 1,800 characters. "Token" feature enabling substituting a single character for an instructional word or phrase. 65 characters from the keyboard. Displays 11 lines of 26 characters/line. Buy Tiny Basic now for \$49.95 and when you buy the expansion package return Tiny Basic and get a full refund of \$49.95. This limited time offer is available only from NCE/Compuart.

# F-8 MICROCOMPUTER ON SINGLE BOARD

WITH F-8 CPU, FAIRBUG PSU, 3853 SMI-DEVELOPED FOR DESIGN ENGINEERS AND SERIOUS HOBBYISTS

F-8 MICROCOMPUTER Model 1080

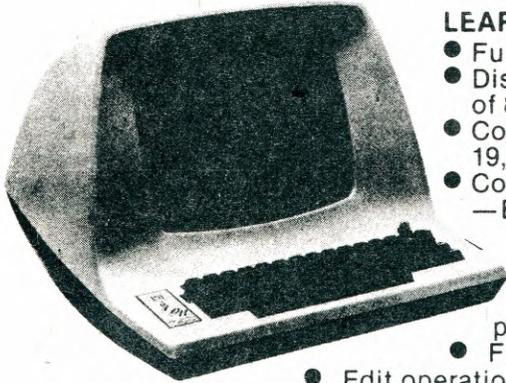

#### Design Features Include:

- Buffered address and data bus to S-100 expansion connector • 4K program memory - 2708 sockets • 2K onboard page selectable static RAM • FAIRBUG monitor plus 1K 2708 custom monitor • Independent FAIRBUG scratch pad RAM • Memory protect switches • Buffered high speed data input port • I/O/interface selection (all 4 ports available) • Two sockets for I/O expansion • 20 ma or RS 232 interface • Quality solder masked PC board • Program control timers • Documentation • 64K addressing range • Prime parts

KIT: \$249<sup>00</sup>

# TERMINALS

Everything you need in small computer systems with special emphasis on TERMINALS! Look at these units... compare price, quality, delivery, service... and you'll see why you don't have to look anyplace else!

## LEARN SIEGLER ADM 3A TERMINAL

- Full addressable cursor
- Display format—24 lines of 80 characters per line
- Communications rates—75 to 19,200 Baud
- Computer interfaces—EIA standard

ADM 3A Kit ..... **\$739.95**  
 ADM 3A Assembled .. **849.95**  
 Lower Case option..... **69.00**

## ADM 1A TERMINAL

- Display Format—80 characters per line by 24 lines
- Full cursor control
- Edit operations: clear screen, clear unprotected character type-over. (Options are Character Insert/Delete, Line Insert/Delete, Erase to end of page, Erase Line/Field) and much more

ADM A1 Assembled **\$1398.00**

## ADM 2A TERMINAL

- 1920 character display (24 x 80)
- 16 function keys for 32 commands
- Separate keyboard—119 keys
- 10 key numeric pad
- Single key edit operations
- Page, field or line edit
- Security, protected fields and much more

ADM 2A Assembled ... **\$1895.00**

## OKIDATA MODEL 110 LINE PRINTER

- 110 CPS dot matrix

Friction Feed ... **\$1149.00**

Tractor Feed ... **1279.00**

RS 232C Serial Interface ... **260.00**

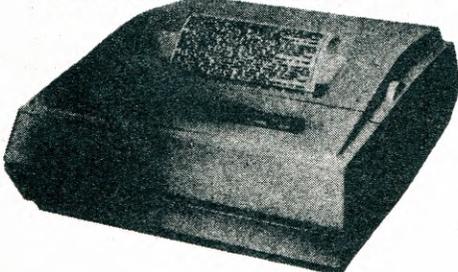

## OKIDATA MODEL 22 LINE PRINTER

- 125 lines per minute
- 132-column print line
- Upper/lower case
- 8 different character sizes
- 12 IPS paper slew

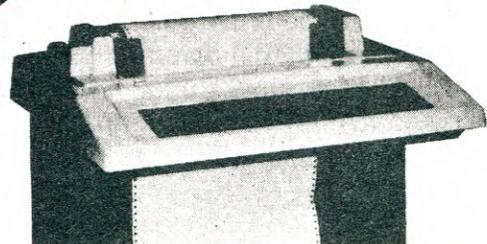

Tractor Feed ... **\$2249.00**

RS 232C Serial Interface ... **379.00**

## DECWRITER II

- 132 column printing
- 10-30 CPS
- Full keyboard
- Tractor feed

**\$1475.00\***

### \$500 Terminal/Monitor

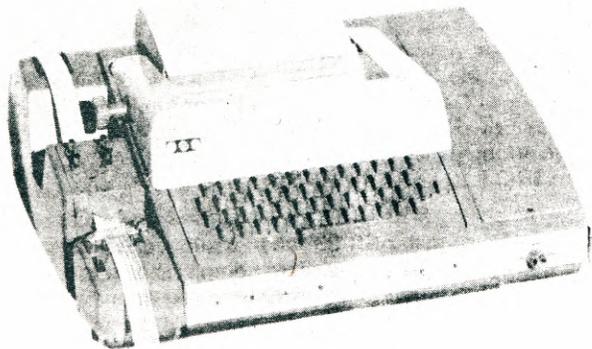

The CT-64 terminal kit offers these premium features: 64-character lines, upper/lower case letters, switchable control character printing, word highlighting, full cursor control, 110-1200 Baud serial interface, and many others. Separately the CT-64 is \$325, the 12 MHz CT-VM monitor \$175.

# TTY

Teletype machines are available from us in three categories: USED (but always in tested, working condition when shipped), RECONDITIONED (meaning the machine has been carefully inspected, lubricated and any obvious defects or worn parts have been replaced), and REBUILT (the machine has been totally torn down, completely inspected, all worn or possibly worn parts replaced, completely cleaned and reassembled, and is in equal-to-new working condition).

## RO-33 TELETYPE PRINTING MECHANISM

An RO-33 printing mechanism is available to fit inside the RM cabinet:

- RO-33 Printing Mechanism, USED . . . . . \$ 440.00\*
- RO-33 Printing Mechanism, RECONDITIONED . . . . . 490.00
- RO-33 Printing Mechanism, REBUILT . . . . . 540.00
- Skin-tight metal case for above, USED . . . . . 14.95

*In conventional KSR-type Teletype enclosure, with power supply, add \$30.00.*

- RO-33 in conventional Teletype enclosure, NEW . . . . . 599.95  
(ideal print-out computer device)

## MODEL 33 TELETYPES

- KSR-33 Teletype, USED . . . . . \$ 499.95\*
- KSR-33 Teletype, RECONDITIONED . . . . . 549.95
- KSR-33 Teletype, REBUILT . . . . . 599.95
- ASR-33 Teletype, USED . . . . . 739.95
- ASR-33 Teletype, RECONDITIONED . . . . . 789.95
- ASR-33 Teletype, REBUILT . . . . . 839.95

*Modems available for above machines for direct connection to phone lines for \$50 additional. Conventional friction-feed or pin-feed machines usually available at same price (subject to availability; please state your preference).*

- ASR-33 TWX with modem (for use on Western Union telecommunications network), USED . . . . . \$ 1,145.00\*
- ASR-33 TWX with modem, RECONDITIONED . . . . . 1,295.00

## MODEL 35 SPECIALS

Substantial inventories are available at present and we are offering them to the user at far below their market value. These rugged machines, built for continuous duty, will last forever and require a minimum of maintenance. They run quieter than 33's.

- RO-35 Printer only, in enclosure, REBUILT . . . . . \$ 595.00\*
- KSR-35 Teletype, USED . . . . . 795.00
- KSR-35 Teletype, NEW . . . . . 1,095.00
- ASR-35 Teletype, LIKE-NEW . . . . . 1,295.00
- ASR-35 TWX machine, RECONDITIONED . . . . . 1,895.00

TELETYPE CORPORATION  
43 TELEPRINTER

When it comes to **economy, versatility and reliability** you'll find the Teletype® 43 teleprinter is in a class by itself. This low-cost communications terminal delivers true 30 character per second throughput, up/low printing and 132 column format capability on 11" wide fanfold paper.

## FEATURES

### Operator Selectable Controls & Indicators

- Local
- Term Ready
- Line
- Interrupt
- Alarm
- Printer Test
- Parity Off/On
- Half or Full Duplex
- 30 or 10 cps.

### Printer

- Prints up to 132 char/line with characters spaced horizontally at approximately 13/100 inch and lines vertically at 6/100 inch.
- Accommodates up to 3-ply fanfold paper 12" wide by 8 1/2" long. Becomes convenient 8 1/2" by 11" size by removing serrated tear margins.
- Characters formed by a 9-wire matrix impact printhead printing a combination of up to 7 out of 9 dots vertically and up to 4 dots horizontally. Prints full 94 ASCII character set (upper/lower case) plus parity error symbol.
- Last character visibility.
- Print position indicator with scale.
- End-of-line indicator (bell sounds 8 characters before and at EOL).
- Ribbon cartridge (continuous inking) for easy replacement.

### Keyboard

- Typewriter-like solid-state keyboard generates all 128 ASCII code combinations.
- Back Space, operator and on-line.
- Caps Lock Feature.
- Adjustable margins, operator (keyboard) and on-line.
- Repeat Key
- N - key rollover permits multiple key depression without error.

# FLOPPY'S & INTERFACES

## TARBELL FLOPPY DISC INTERFACE

- Plugs directly into your IMSAI or ALTAIR\* and handles up to 4 standard single drives in daisy-chain.
- Operates at standard 250K bits per second on normal disc format capacity of 243K bytes.
- Works with modified CP/M Operating System and BASIC-E Compiler.
- Hardware includes 4 extra IC slots, built-in phantom bootstrap and on-board crystal clock. Uses WD 1771 LSI Chip.
- 6-month warranty and extensive documentation.
- **PRICE:**  
Kit \$190 . . . . . Assembled \$265

### Compatible Disc Drives

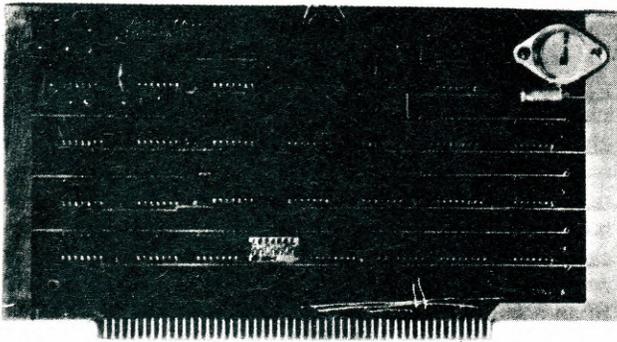

our disc drives priced as low as \$525.

## KIM S-100

Escape the single source blues. The Kimsi is the easy way to expand your KIM-1 system with readily available S-100 boards. Forethought Products has interfaced the 6502 to the S-100 bus by decoding the top 4K for IN and OUT instructions. Full capacity interfacing allows complete control of the 6502 and DMA from the S-100 bus.

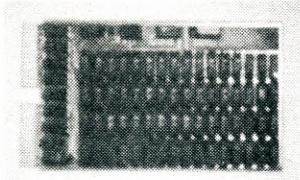

Item		Kit price	Assembled price
Kimsi Backplane/S-100 Adapter	8 slots for S-100 available	\$125	\$165
KIM to Kimsi Connector Set	Includes recorder cables	8	11
S-100 Edge Connector	Kimsi accepts 8; 1 is supplied	4.75	7
Cassette Recorder for KIM-1	Hundreds sold for KIM use	N/A	44.95

### COMPUTER KIT SELECTION GUIDE

Type of Microprocessor	Kit	Unit Price
6502	Kim 1 (assembled)	\$245.00
8080	Intel SDK-80	299.00
6800	Motorola MEK 6800D2	235.00
6800	AMI EVK99	145.00
Z-80	Zilog Z-80CPU Card (assembled)	849.00
6100	Intercept Jr.	287.50
1802	RCA COSMAC	295.00
9900	Technico 9900 Kit	299.00

**PLUS FROM ALPHA MICROSYSTEMS THE AM100**

**S-100 COMPATIBLE**

**16Bit CPU that uses the PDP11 instruction set.**

**AM-100\* 16-BIT CPU**

The AM-100\* by Alpha Microsystems replaces your 8080 microprocessor in the S-100 bus computer with a 16-bit microprocessor CPU (2 card set) that gives you Minicomputer power.

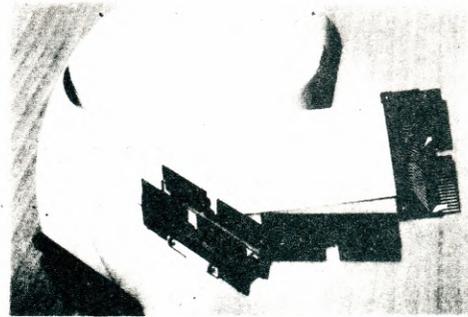

- Eight 16-bit multipurpose registers.
- Multi-level DMA and vectored interrupt system.
- Real-time clock on the CPU board.
- Hardware supported totally relocatable object code.
- Multi-user, multi-tasking timeshared operating system.
- True priority system in time-sharing operations.
- Multi-user structured file system with passwords.
- Multiple pass macro assembler and linking loader.
- Floppy disk file management system and utilities.
- Up to 10 times the throughput of an 8080 system.
- Fully supports most S-100 peripherals without modification.
- AlphaBasic\* extended compiler and run-time system (not an interpreter).
- Free-form text editor and letter-writing text formatter.
- System generation program to create custom operating system monitors.
- Completely device independent with logical file I/O calls.

**HIGH DENSITY WIRE-WRAP MODULES**

(Quad Module pictured)

- Dual W/W BD W940 . . . \$ 74.95
- Quad W/W BD W9301 . . . 195.00
- Hex W/W BD W9302 . . . 295.00

**NEW HARD TO FIND DEC PRODUCTS**

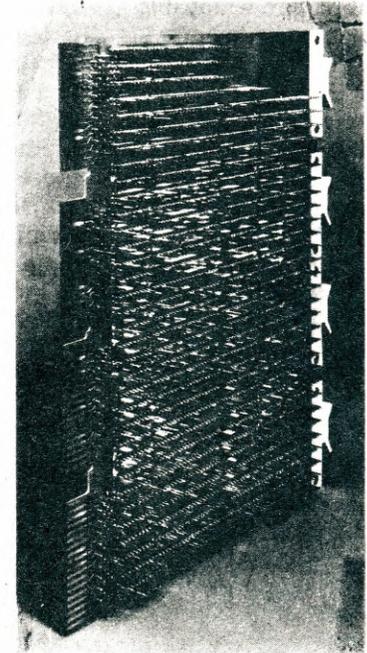

**PDP11 UNIBUS CABLE**

Available in 5' & 10' lengths  
 5' length P/N11A-05 \$129.95  
 10' length P/N11A-10 \$159.95

CONNECTOR MODULE  
 P/NM920 . . . \$74.95

UNIBUS TERMINATOR MODULE

MEMORY KIT

## HERE'S OUR DEAL

The 9600 Family of Support Modules is a set of generalized building block hardware designed around the M6800 Microprocessor. The cards are pin and outline compatible with the Motorola EXORciser\* and Micromodules,\* the MEK6800D1 and MEK6800D2 Evaluation Kits, and with other industry standard cards.

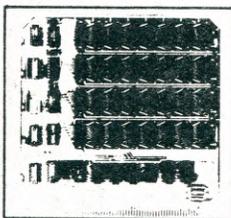

We'll save you time and money with our low cost, ready-to-use Support Modules. Use them to build your data communications, industrial control, or other microprocessor-based system and give it personality with software or plug them into your EXORciser\* to expand memory and I/O capacity.

SUPPORT MODULE	1 - PRICE			
9600 6800 MPU Board	NEW \$495.00	9626	8K Static RAM Module	295.00

### MEM

#### 16/65 K MEMORY BOARD

NEW

**\$595\***

The MEM board has been designed for compatibility with the Zilog MCZ microcomputer bus. The memory is pin and outline compatible with the RMB of the Zilog microcomputer family.

The MEM board features 4K or 16K dynamic RAMS with switch selectable addressing throughout any segment of the 65K address space. Excellent noise immunity has been achieved with address latching and careful attention to the printed circuit design.

- Features
- 16/65K Bytes Per Board
  - One Switch Selects any 4K Address Boundary
  - 8 Watt Power Dissipation
  - High Noise Immunity

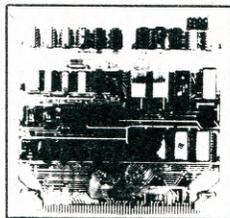

Also Available

**MUX-Multiple purpose I/O card** \$395.00\*  
which can be added to Zilog MCZ System.

### ZPU

#### MICROCOMPUTER BOARD

NEW

**\$395\***

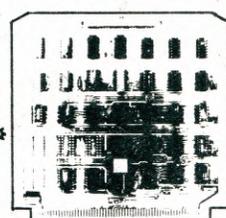

The ZPU microcomputer board has been designed for compatibility with the Zilog microcomputer bus. The ZPU is pin and outline compatible with the Zilog microcomputer family.

The ZPU board features the Z-80 CPU with a 158 instruction set. Sockets are provided on the board to accommodate 4 - 2708 PROMS or 4 - 2716 PROMS. These PROMS can be placed anywhere in the 65K address space and can be switched in or out of service under software control. Two asynchronous full duplex channels with switch selected baud rates are also provided. A complete stand-alone microcomputer can be configured with a ZPU and MEM board set.

### ZDC

#### DISC CONTROLLER

NEW

**\$395\***

The ZDC board has been designed for compatibility with the Zilog MCZ microcomputer bus. The disc controller is pin and outline compatible with the MDC board of the Zilog microcomputer family.

The ZDC can control up to 8 floppy disc drives. All formatting and control is performed under the direction of the powerful Z80 microprocessor. A 16 bit CRC cyclic redundancy check circuit is included in the hardware of the ZDC. Optional software is available to provide hard sector control for most popular floppy disc drives.

**\*DISCOUNT PRICE**

**MOM-Motherboard for above** \$195.00\*  
cards  
**PWR-Power Supply +5V,+12V** \$250.00\*  
**DISC-Sugart SA800/801** \$595.00

## AMI EVK 99

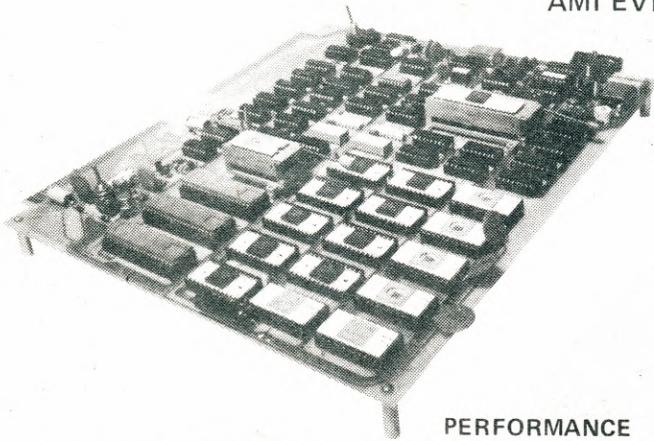

Photo of expanded EVK 99 Board

### EVK 99 6800 Powered MICROCOMPUTER SYSTEM (the truly expandable 6800 microsystem) ENGINEERS TEACHERS HOBBYISTS

You can use the EVK to design your next microcomputer based system. The EVK is software and firm ware supported and supported and comes complete with comprehensive instruction manual and handbook. The kit has been field tested and accepted by users in all fields of endeavor.

**PERFORMANCE  
VERSATILITY

### AMI EVK 99 6800 BASED MICROCOMPUTER

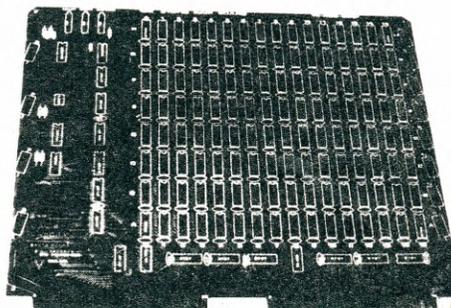

Ask the Home-Brew Computer Club and the 6800 users Club in Santa Clara, California why they choose the EVK 99 Microcomputer. They now have over 250 systems. The reasons are clear: **Performance, versatility and cost effectiveness.**

\* **DISCOUNT PRICE**

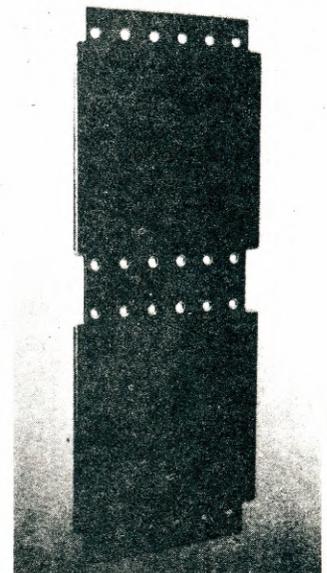

#### UNIVERSAL KLUGE BOARD \$95.00

Completely compatible to the EVK system. This board allows the user to add any additional parts he desires. It has 5400 holes, holds 94 16 pin IC's or others on .2, .4, .6, 9" or greater centers. 2 - 50 pin, 1 - 20 pin RS232 connector.

#### 16K BYTE RAM BOARD \$75.00

16K x 8 or 8K x 16 organization. Uses 2102's or 21L02's and adapts to slow memory.  
Qty. (128) 2102's only \$1.19 ea.  
Qty. (128) 21L02's only \$1.35 ea.

#### 6 SLOT MOTHER BOARD \$35.00

Connectors mount on .75" May be plugged together for expanded applications. Uses wire-wrap sockets and has buss signals and power distributed.

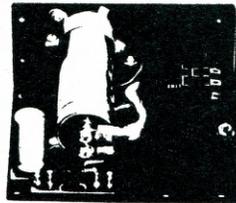

**Buy Complete EVK System**  
Includes: Fully populated EVK Kit  
16K Byte Ram Board Kit  
6 Slot Mother Board w/11 Connectors  
Tiny Basic on EPROM  
Microassembler on ROM

**ONLY  
\$1049.95**

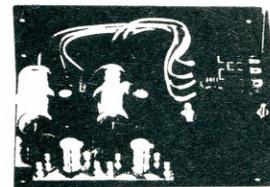

**COMPLETE KIT  
16K ONLY \$399.99**

**BUG BOOKS**

Our Bugback adhesive labels stick to their chips, immediately identifying logic functions and pin numbers. But even without the \$6.50 Bugback freebie, our Bugbooks are a great bargain. Nine books, packed with everything to teach you digital and analog electronics from scratch.

**Bugbooks I & II** - 750 pages, with experiments in basic digital electronics to sophisticated circuits \$17.00

**Bugbook IIIA** - Advanced topics in digital logic transmission \$5.00

**Bugbook III** - General overview of microcomputer systems with particular emphasis on interfacing, I/O, programming in machine languages. 587 pages. \$15.00

**Bugbooks V & VI** - Digital logic and microcomputers from ground zero.

Emphasis on self-teaching. No previous knowledge of electronics needed. Over 900 pages. \$19.00

**BRS-1** - Lab workbook providing theory and applications of the 555 timer chip. \$6.95

**BRS-2** - Text/workbook covering the best design of low-pass, high-pass, bandpass and notch filters. \$8.50

**BRS-4** - OP-AMP and linear course. 300 pages. \$9.00.

## SPECIAL FEATURE

### 1978 IC MASTER

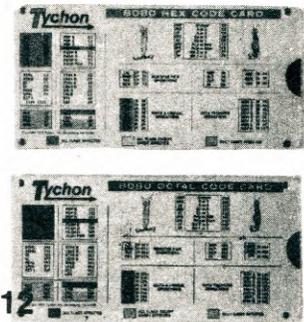

The one source book for the critical selection of integrated circuits. Easy to use. All information is cross referenced and indexed for rapid problem solving and device selection. Additionally, the Master is cumulatively updated in the Spring, Summer & Fall at no extra charge. 1978 IC Master includes over 40,000 standard products from more than 87 different companies; over 2,200 pages comprising five different selection guides (Memory, Microprocessor, Interface, Linear and Digital); almost 1500 design data pages; alternate source directory for pin-for-pin, function-for-function replacements; applications directory; complete military section; a complete part numbering guide. Special price includes 1978 updates. 1978 2200pp

## BASIC SOFTWARE LIBRARY

Vol. 1	Part 1 Book Keeping	24.95
	Part 2 Games & Pictures	
Vol. 2	Part 3 Math & Engineering	24.95
	Part 4 Plotting & Stat Basic Statement Def	
Vol. 3	Part 5 Advanced Business	39.95
Vol. 4	General Purpose Programs	9.95
Vol. 5	Experimenter	9.95
Vol. 6	Business A/R	49.95
Vol. 7	Chess/Medical	39.95

For the microcomputer user, a series of books provide complete programs, written in BASIC. All these books are by Lon Poole and Mary Borchers.

"Some Common Basic Programs" 200 pages.

Book No: 21002 \$7.50

"Payroll With Cost Accounting — in Basic". 400 pages Book No.: 22002 \$12.50

"Accounts Payable and Accounts Receivable"

Book No.: 23002 \$12.50 Available November 30, 1977

"General Ledger System"

Book No.: 24002 \$12.50 Available December 31, 1977

"An Introduction To Microcomputers: Volume II — Some Real Products" (Revised June 1977) By Adam Osborne, Susanna Jacobson and Jerry Kane.

This book describes every common microprocessor and all of their support devices. Information is new and clearly written. Only data sheets are copied from manufacturers. 1200 pages.

Book No.: 3001 \$15.00

**8080A AND 8085 ASSEMBLY LANGUAGE PROGRAMMING**  
BY LANCE LEVENTHAL

"8080A and 8085 Assembly Language Programming" By Lance Leventhal.

This book is for the assembly language programmer or student; it explains assembly language programming for the 8080A and 8085 microcomputers. The book contains numerous examples. 400 pages.

Book No.: 31003 \$7.50 Available October 31, 1977

The "Programming For Logic Design" series of books show how to use microprocessors in a digital logic environment.

"8080 Programming For Logic Design" By Adam Osborne. 300 pages. Book No.: 4001 \$7.50

"6800 Programming For Logic Design" By Adam Osborne. 300 pages. Book No.: 5001 \$7.50

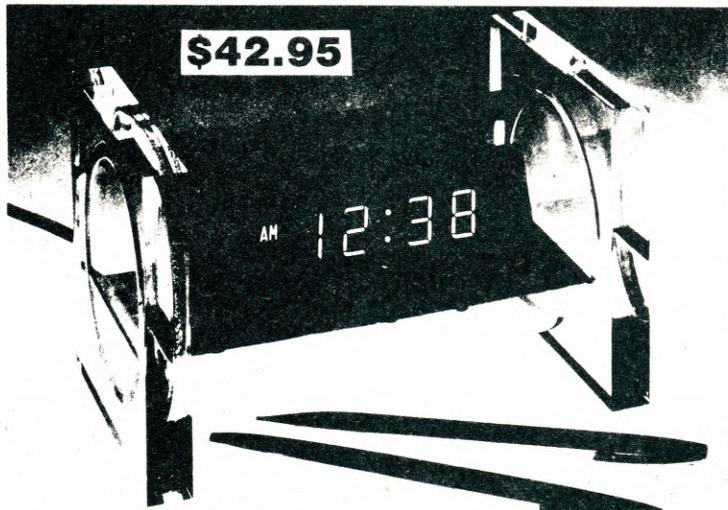

"Z80 Programming For Logic Design" By Adam Osborne and Susanna Jacobson. Book No: 7001 \$7.50 (Available November 30, 1977)

## SERIES 2000

### model 2001 EXECUTIVE TIME TUBE

Completely Solid State • Hours, Minutes; Seconds at a touch • AM/PM Indicators

Bright Fluorescent Display (not LED) • Sight-Saver Automatic Dimming

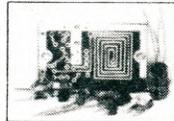

Power Failure Indication • Space-Age Styling • Hand Crafted in USA

**Model 2002 - \$38.95**

**Same as Model 2001 with Walnut Ends**

**End your video display problems quickly with a "PIXE-VERTER"**

The "original" video-to-RF converter

Available from your favorite computer store or factory-direct.

MODEL PXV-2A

\$8.50 kit form

CONVERTS any good TV RECEIVER into a Top-Notch VIDEO MONITOR ... IN MINUTES!

- IDEAL FOR COMPUTERS, GAMES, CAMERAS, VTR's, etc.
- CONNECTS DIRECTLY TO TV ANTENNA TERMINALS.
- WORKS EQUALLY WELL ON "hot" CHASSIS SETS.
- ACCEPTS ANY SIGNAL from 0.25 to 5.0 volts. ANALOG or DIGITAL.
- LOW POWER REQUIREMENTS: -5 volts @ 3 ma. max.
- WIDEBANDPASS permits optional COLOR and SOUND operation!

### LIQUID CRYSTAL DIGITAL CLOCK-CALENDAR

- For Auto, Home, Office
- Small in size (2x2 1/2 x 1/2)
- Push button for seconds release for date.
- Clocks mount anywhere with either 3M double-sided tape or VELCRO, included.
- 2 MODELS AVAILABLE:  
LCD-101, portable model runs on self-contained batteries for better than a year.  
LCD-102, runs on 12 Volt system and is back-lighted.
- LCD-101 or LCD-102 your choice..... **\$34.95 ea.**
- Clear desk stand for..... **\$2.00**

LAMP CLOCK  
Timeband  
by FAIRCHILD

- 24 hour alarm
- Doze button
- Alarm-on indicator
- 8" high Red LED Display
- AM/PM Indicator
- High intensity lamp
- Lamp shuts off when collapsed
- Modgl C-590 (Ivory) **\$29.95**

## CLOCKS — Good Christmas Items

**Timeband**™
