MANAGER™

mouse →
**an innovation
 in mouse technology**

Manager Mouse is designed with a unique, patented independent suspension system that delivers skip-free performance on virtually any surface, at any angle. Its self-contained drive mechanism makes it completely portable and carefree.

- Plugs directly into your computer without any external power supply. It is ideal for international use.
- Operates without a special pad or tablet.
- Requires no disassembly for carefree maintenance.
- Works with a standard RS-232-C interface to accommodate IBM personal computers and compatible systems, as well as a growing library of applications programs.

A plug-in portable performance package

Manager Mouse is available in two models and is supplied with TMouse software, a comprehensive user's manual, technical reference data, and a twelve-month limited warranty. You can take it anywhere since it needs no external power supply or special pad or table in order to operate.

Model 1001C has a standard DB25 female connector and can normally be used with these computers:

IBM PC,™ PC/XT,™ PC Portable,™ 3270 PC,™ COMPAQ Portable,™ Plus,™ DeskPro,™ ATT 6300,™ as well as Datavue 25,™ Eagle Spirit,™ PC Plus,™ Ericsson,™ Kaypro,™ ITT Xtra,™ Leading Edge Model D,™ Morrow Pivot.™

Model 1001C-AT* has a standard DB9 female connector with a special eight foot cable and can normally be used with these computers:
 COMPAQ DeskPro 286,™ Portable 286™ and IBM PC/AT.™

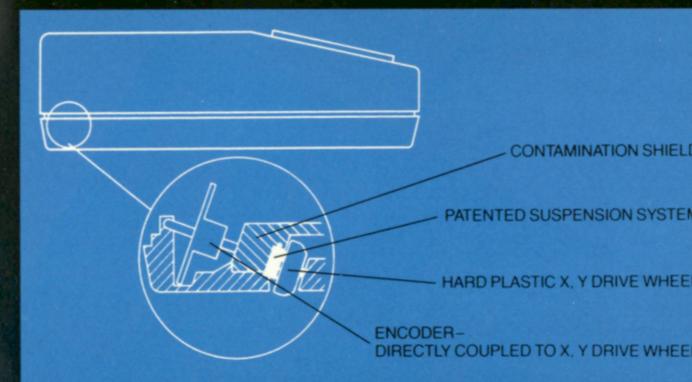

Order Manager Mouse with KeyFree for added performance. KeyFree empowers even the most docile business programs, giving you blistering speed and the ability to define your own keyboard macro. Never again trudge along in Lotus 1-2-3 with arrow commands. Load up KeyFree and streak through your spreadsheets. Fly through dBase III Plus menus. Update, edit, list as fast as you can think.

Note: Please check the type of connector on your computer serial card (number of contacts, male or female). Some computers require an adapter to work with Manager Mouse.

*Model 1001C can be substituted if special adapter is used.

**The patented
 Manager Mouse
 suspension system
 means no cleaning.**
