## BARSTOW CUSTOM MADE RODEO CHAPS

We custom make your chaps to your exact measurements just the way you like them. We use only the finest leathers and materials. All chaps are hand cut and sewn by expert leather craftsmen. All straps are riveted to hold up under the very roughest of rodeo wear. We have many styles and patterns. All chaps pictured here represent styles of chap cuts. All chaps can be made in one, two or three color combinations. Colors include: White, Black, Red, Gray, Tan, Chocolate, Medium Brown, Royal Blue, Navy Blue, Gold, Green, Orange, Yellow, Pink, Burgundy, Turquoise, Neon Pink, Metallic Silver, Metallic Gold, Metallic Red, Metallic Blue, Metallic Pink, Metallic Bronze, and Metallic Copper.

Any of the figurines listed here may be incorporated into any of our chap styles.

Figurines include: Clover, heart, maple leaf, oak leaf, horseshoe, playboy bunny, diamond, scroll, and ace of spades. (Thunderbird, dove, eagle, end of trail, bareback rider, saddle bronc rider, bull rider, or your own design may be added to bottom of chaps at extra cost.)

Rodeo chaps are also available with basket stamped skirting leather trim the same as work chaps (see page 26).

Initials or Brands available on chaps at an extra charge (see price list).

### ESTEP BULL RIDING PATTERN

Our best selling bull riding chap is shown here with the popular scroll figure at the top and horse shoe at bottom. Pictured in 3 color gold, green and black. Cut away knee makes it easy to fold chap back out of your way in the chutes yet gives plenty of action when the gate swings open.

### THE HAND

This popular, 3 event chap is shown with a Royal Blue body, Black trim, and White third color.

NO. 1-1703-B SUEDE SPLIT CHAPS  
NO. 1-1704-B TOP GRAIN CHAPS

### WILLIAMS BAREBACK CHAP

Pictured here with oak leaf figure in grey, white and black color combination, the Williams Bareback Chap will give you plenty of action. The same pattern used by 8 times IPRA World Champion Bareback Rider Ronnie Williams.

NO. 1-1703-C SUEDE SPLIT CHAPS  
NO. 1-1704-C TOP GRAIN CHAPS

### THE FINAL GO ROUND

Shown here in black, red and metallic gold combination with heart figure. Similar to Hoof Beats pattern. Fringe cut in body of chap with added trim around edge of fringe. A good 3 event chap.

## PROTECT YOUR VALUABLE EQUIPMENT WITH A BARSTOW GEAR BAG

We have added two new turquoise color choices to our line of canvas gear bags.

We have combined the ever-popular canvas bag with the durability of the vinyl bag giving you the very best way to protect, store, and transport your gear.

### THE GEAR BAG PREFERRED BY THE PROS

Several years ago Neil Barstow wanted to develop a bag which would hold up under the rigors and abuse that only a rodeo cowboy on the go can extend on a piece of equipment. He designed and began manufacturing the heavy vinyl-lined canvas gear bag featuring inside pockets with hook & loop closures. This bag has become famous for its durability and good looking style with orders coming from around the globe. These bags are not only great rigging bags but also make fine luggage. They are used by world champion cowboys, country and western stars, businessmen, world champion race car drivers, and professional athletes.

- Made of the very highest quality, heavy, rugged, water resistant duck. (Lets air get to your equipment so it can "breathe" versus the all-vinyl bag which is air tight.)
- Inside of bag has long wearing padded bottom covered with durable vinyl.
- Inside is vinyl-lined three quarters of the way up side panels for long life.
- You will enjoy the convenience of the two large pockets with fast, easy-to-open hook & loop closures and the 4 smaller pockets come in

handy for storing your pliers, extra rowels, change, etc.

- Full length, heavy duty, self-repairing zipper with two sliders allows easy access to contents.
- All edges are finished to eliminate unraveling.
- Longer handles allow handy over-the-shoulder carrying convenience.
- Reasonable price.
- Satisfaction Guaranteed as with all of our products.

### BAREBACK RIGGING PAD

**NO. 6-2001-F LEATHER COVERED  
FELT PAD**

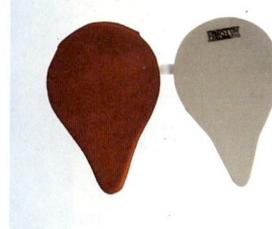

**NO. 6-2001-R LEATHER COVERED  
RUBBER PAD** — Meets ALL PRCA Rule Requirements. Two styles: Long-lasting leather covered Felt or high density Foam Rubber. Many riders prefer the Felt as they feel that it is flexible in all temperatures, allowing it to fit the horse's back better, making it easier to set rigging properly. Some like the Foam Rubber, as they feel it holds up a little longer.

### COMBINATION RIGGING - TAIL PAD

**NO. 6-2002F LEATHER COVERED  
FELT PAD**  
**NO. 6-2002R LEATHER COVERED  
RUBBER PAD**

Our most popular pad is available in two styles: Leather Covered Felt or High Density Foam Rubber. This pad extends an extra 6" to combine the mandatory rigging pad with the tail pad. Conforms to both PRCA and IPRA rule specifications.

### TAIL PADS

**NO. 6-2003  
PLAIN**

**NO. 6-2004  
LEATHER COVERED**

This essential pad is made of high density athletic foam giving you the utmost in shock absorbing protection. Plain or leather covered for long life.

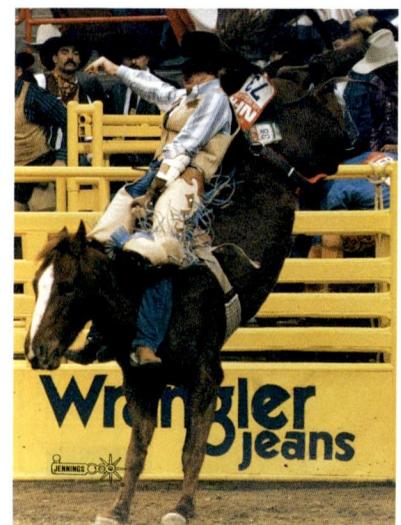

**NO. 6-2006  
HANDLE PAD**

This leather covered rubber pad can be glued or taped to rigging for protection from handle injury.

## BARSTOW PRO RIGGINGS

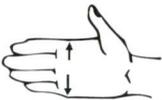

Each Barstow Pro Rigging is individually handcrafted for you by our expert leather workers.

- We use only the finest skirting leather and premium rawhide, all specially selected to give you the most professional quality rigging money can buy.
- Streamline-shaped body is designed to "give" in the right place at the right time. Eliminates your rigging from "going over the head" or turning.
- All Bodies have "hard" neolite core giving you a longer wearing rigging which will not become "raggy."
- All Bodies have rawhide around the dee rings on all four corners to minimize stretch and increase the life of your rigging.
- All handholds are attached to your rigging body with tough, long-lasting stainless steel screws.
- All handholds are designed to give you a comfortable grip with maximum bind.

Handholds are available in both the over-under style or the both bars under style. Approximately 95% of all handholds we build are the over-under style preferred by most pros because of the general consensus that the handle has less side-to-side "give."

**Please Note:** All Rawhide handholds take **8 to 10 weeks to complete**. Each layer is individually hand-shaped and laminated and **must** be allowed to dry a certain amount of time (depending on humidity) to assure that your handhold is cured properly.

**When ordering Bareback riggings** please specify:  
(1) Right or Left hand. (2) "Both bars Under" or "Over-Under handhold" style. (3) Glove Size. (4) Width of open palm without glove. (5) Include hand tracing with fingers together, thumb out.

Please keep these facts in mind when placing orders: We try to keep between 60 to 100 handles in various stages of production at all times in different hand sizes to cut down on the waiting period, but there are certain times of the year that orders are at such a high rate that we cannot fill your order immediately. **NOTE: PLEASE DO NOT ASK US TO RUSH A RIGGING ORDER FOR YOU. WE WILL NOT SEND OUT A RIGGING WHICH IS NOT COMPLETELY CURED AND READY FOR RIGOROUS ARENA USE.**

### PRCA Approved Riggings

- |        |  |
|--------|--|
| 0001-P | Same as rigging pictured at right, except short rawhide strips around D-ring on back of body.      |
| PR94   | Reinforced in peak of body. Short rawhide around D-rings (all four corners). Very popular rigging. |
| 812P   | Stoutest body we make. Long rawhide around D-rings on front of body and short on back of body.     |

**NO. 5-0009** Keep an extra set of screws and T-nuts in your gear bag for emergencies. Set of 10 stainless steel screws and T-nuts.

## BARSTOW PRO ALL RAWHIDE RIGGING

The handhold on the Barstow Pro All Rawhide Rigging is designed to give you the most bind yet feel comfortable to your hand. (This rigging is recommended for experienced riders.) Used by many of the world's top professional cowboys. More research and development has gone into this rigging than any other on the market today. Invented and developed by two times' World Champion Bareback Rider, Jim Houston, in 1962. This rigging has completely revolutionized the bareback riding sport of rodeo. Barstow Pro Rodeo Equipment has constantly worked to improve and perfect this rigging and will continue to do so.

## BARSTOW PRO HALF AND HALF RIGGING

The Barstow Pro Half and Half is designed for the rider who wants a little more give in his rigging. The Half and Half handle now features a leather core with rawhide laminated on each side of handle. Total rawhide thickness does not exceed  $\frac{3}{8}$ -inch (National High School Rodeo Assoc. Rules). This rigging features neolite core, rawhide underbody and rawhide around D-rings on all four corners. Half and Half handles may be put on any body we make. Please check price list.

### NO. 14-BROC BRONC MAGIC

Bronc Magic will teach you to lift on the rein, plant your feet, drag to the cantle, release, and charge back to the front end.

If you are a beginner, Bronc Magic will take years off your learning time. If you are an experienced pro, it will add life to your riding, plus money in the bank.

Bronc Magic is designed to increase speed and power in your legs, thus increasing your charge, mash and drag.

**NO. 14-A399 RUBBER  
GRIP BUILDER**

### NO. 14-BULL BULL MAGIC

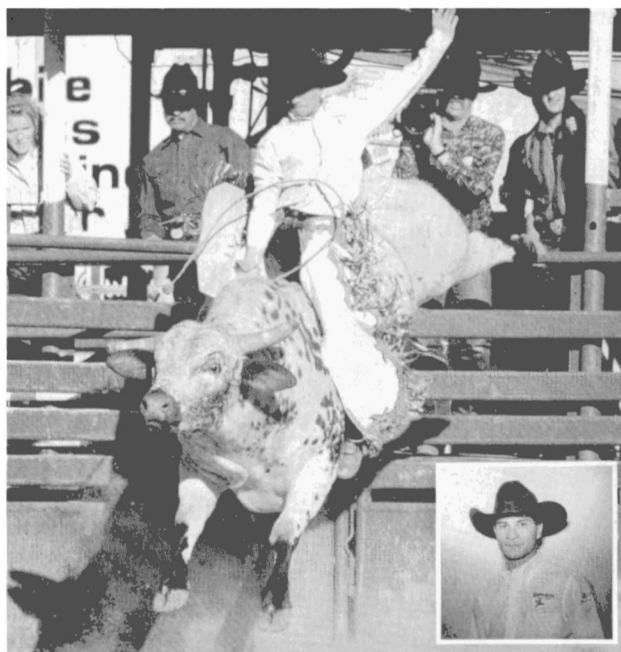

Bull Magic is designed to condition the muscles used by Bull Riders. It will build your power to help withstand the force of rank bulls. Bull Magic strengthens the upper groin and hips through knee mashing exercises. Lower groin, hip, knee, and ankles are conditioned for the very best spurring rhythm and reaching for new spur holds. ADJUSTS to different leg lengths.

### SPUR MAGIC REVOLUTIONIZES TRAINING FOR BAREBACK RIDERS

#### NO. 14-SPUR

Spur Magic duplicates the motions a bareback rider goes through while riding. Develops and strengthens groin, thighs, hips, knees, calves, and ankles. Increases strength and improves timing and spurring lick. Reduces injuries and extends careers. Used by many PRCA and IPRA finalists and World Champions. Endorsed by eight-time IPRA Bareback Champ and IPRA Bareback Riding Director, Ronnie Williams, and Clint Corey, PRCA Runner-up World Champion Bareback Rider. You mash pads with heels, pull all the way to handle, release and beat them to the bottom with your feet. Tension can be increased by hooking up 2nd tension pulley (included).

**MYRON DUARTE**, 1994 PRCA Mountain States Champion Bull Rider; 1995 DNCFR Bull Riding Champion ... "I have been using Barstow equipment for most of my bullriding career and have relied on the craftsmanship of their bullropes and other equipment."

**FANCY 7-PLAIT**

**REGULAR 7-PLAIT**

**9-PLAIT**

**9-PLAIT** — Hardest, tightest plait. Very smooth and firm. Holds body longer than any of the other plaits. The most popular rope. Preferred by more professional bull riders than any other plait.

**REGULAR 7-PLAIT** — The widest, thinnest rope. Least popular plait.

**FANCY 7-PLAIT** — A popular rope. Plaited differently than regular 7-plait. Narrower and slightly thicker.

**5-PLAIT** — The least tightly braided rope of all. More of a soft, mushy rope. Still popular with many bull riders.

**9-PLAIT HANDHOLD/5-PLAIT TAIL** — Very popular rope.

**7-PLAIT HANDHOLD/5-PLAIT TAIL** — Not as popular as it once was.

**STANDARD PROFESSIONAL POLY BULL ROPES**

You don't have to wait as long on these ropes. They are continually being braided in quantity. Sometimes there is no wait at all. All ropes are braided tight and even with plenty of leather in the handhold, block, riser, and stock. All ropes must meet Neil's strict standards. These ropes have 6 1/2 ft. long loop end and 7 1/2 ft. long tail. Handhold is 12 1/2" long with 3 fingers slack. You must be completely satisfied or return unused within 14 days for exchange or refund. SPECIFY: R or L hand.

## NEIL BARSTOW CUSTOM-MADE POLY BULL ROPES

**BARSTOW BULL ROPES — QUALITY YOU CAN COUNT ON**

BARSTOW ROPES feature leather-laced handhold, block, riser and stock \*(laced the "Barstow" way). NOTE: The riser stands straight up to lessen the chance of hanging up.

Neil Barstow Custom-Made Bull Ropes are the finest ropes on the market today. They are used by many of the top professional bull riders across the nation. These long-wearing poly ropes are rot resistant. Mud and moisture will not affect them. They will out last grass ropes at least three times longer. Due to the scarcity of good quality, long-fibered, manila ropes, poly bull ropes have become the standard of the industry.

- \* Neil Barstow, nationally-known maker of custom bull ropes has over 20 years' experience making ropes for the nation's best bull riders.
- \* All ropes have plenty of leather in the handhold, block and riser. The stock (opposite end of handle from block) is also leather-laced on every rope. **BE SURE TO SPECIFY WHICH HAND YOU RIDE WITH.**
- \* Every rope is plaited hard, tight and uniform.
- \* Made of the very finest brown poly rope. (White poly available upon request.)
- \* Neil Barstow has spent years researching rope fibers to find the right fibers that make the best rope with the longest wear.
- \* All the rope from which we make our bull ropes is specially made exclusively for Barstow Pro Rodeo Equipment to Neil's strict standards.
- \* **SATISFACTION GUARANTEED.** You must be completely satisfied or return unused within 14 days for replacement or refund. This applies to standard ropes as well as custom-made.

**NEW COLORED Bull Ropes**  
Custom ropes can now be made in Red, Blue, Turquoise, Red & Black Combination, or Red, White & Blue Combination.  
**NOW!! Neon Pink & Black Combination!**

Top PRCA Bull Rider and 1979 Runner-up World Champion Bull Rider, **JERRY BEAGLEY**, of Calera, OK, won over \$100,000 using this single Neil Barstow custom-made Poly Bull Rope. Jerry says, "You might be able to buy cheaper ropes, but for a few extra pennies a ride, you can't afford NOT to use a Barstow Rope!"

### BARSTOW CUSTOM-MADE POLY BULL ROPES

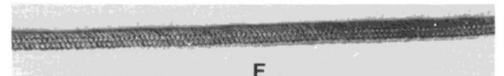

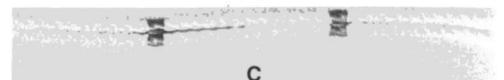

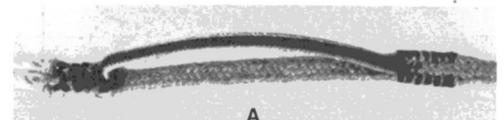

Made to your exact specifications personally by Neil Barstow and his two top braiders. All custom-made polys are treated with BULL ROPE CONDITIONER at no extra charge. (See order form.) **TREATING A WHITE ROPE WILL ALTER THE COLOR!**

WE CAN MAKE YOUR ROPE ANY WAY YOU WANT IT. You name it, we will do it for you. Contact us if you are wanting something different. Allow at least 8 to 12 weeks for delivery as all ropes are CUSTOM-MADE to your exact specifications. Ropes are made on a first-come basis as orders are received. Any plait can be made to your desired width.

**SUPERIOR QUALITY CHINKS**

Originally a desert chap, the chink has become increasingly popular everywhere. Being short, they allow freedom of movement, yet offer protection from brush and weather. They are cooler in summer. Less bulk makes them easy to wear on the ground or in the saddle. Even works well for bucking bales or shoeing horses. Cut to your measurements from the finest leathers. Back belt of russett skirting leather has roller buckle adjustment. Highest quality materials and workmanship throughout. Earth Tone Colors.

- A. Shows our basic basket stamped chink with Scroll No. 1
- B. Shows a fancier chink with basket stamped trim, silver conchos, silver front buckle and inset pocket (*check price list for these extras*).
- C. Shows our basic top grain chink. Outside flap pocket shown on these is extra (*see price list*).

PLEASE BE SURE TO SPECIFY: Scroll No. 1, Scroll No. 2, or Diamond Design on legs. Also SPECIFY: Step-in or Buckle Legs.

Cody Lambert

Designed in conjunction with CODY LAMBERT by Tipperary, this vest is made of various outer shells with an inner mesh lining. This vest contains the highest level (Beta 7) of shock absorbing material currently available in protective vests. It covers the torso from approximately one inch below the rib cage, upward to include the collar bone and the shoulder areas. The protection this vest offers is **BETTER THAN EVER BEFORE ...** providing force attenuation for high-mass, low-velocity forces. Available in: Leather, Denim, and NEW Poly-Duck (made exclusively for Bartstow Pro Rodeo Equipment by Tipperary).

## STANDARD FEATURES

1. Spectra Shield protection for spinal area.
2. Safety Velcro-release shoulders.
3. Heavy-duty front zipper with full Velcro closure over top of zipper.
4. Protective material under zipper.
5. Two front pockets.
6. Back tabs for event numbers.
7. Adjustable side straps for fit.
