IF YOU WANT TO SET UP AN ACCOUNT PLEASE REQUEST INFORMATION. WE ARE A MAIL ORDER BUSINESS AND ONLY OFFER STRICT N/10 TERMS UPON APPROVAL.

COMMENT:

We would like to say thanks to you our customers who have helped make this business successful. In the past years as "Bob Blackwood Equipment" we worked hard to improve our service, quality, and delivery. As we expand our product lines as "**Top Hand Rodeo Equipment**" we will continue to improve our service, quality, and delivery. A special thanks for your patience with us as we have been getting this new catalog out.

CUSTOM BAREBACK RIGGING

by HENNESSY CUSTOM LEATHER

PETE AND GAIL HENNESSY HAVE BEEN MAKING CUSTOM BAREBACK RIGGINGS FOR CLOSE TO 20 YEARS. WE COUNT IT AN HONOR TO BE ABLE TO ADD HIS CUSTOM RIGGINGS TO OUR LINE OF EQUIPMENT. HENNESSY'S RIGGINGS REPUTATION GOES BEFORE HIM WITH SUCH WINNERS AS BRUCE FORD, MARVIN GARRETT AND OTHERS. THESE RIGGINGS ARE MADE WITH TOP QUALITY LEATHER, NEOLITE, AND RAWHIDE - ALWAYS USA MATERIAL. SEE CHART FOR MEASURING CORRECTLY.

TO DETERMINE RIGGING FIT:

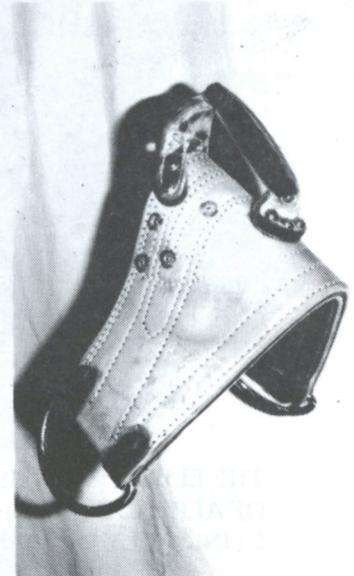

FIRST DETERMINE YOUR GLOVE SIZE BY HOLDING YOUR RIDING HAND FLAT WITH THE PALM UP. MEASURE FROM THE OUTSIDE EDGE OF THE INDEX FINGER TO THE OUTSIDE EDGE OF YOUR SMALL FINGER. MEASURE ACROSS WHERE THE FINGERS JOIN THE HAND. **DO NOT** MEASURE AROUND THE SIDE OR EDGE OF YOUR HAND. USE THE CHART TO DETERMINE YOUR GLOVE AND RIGGING HANDLE SIZE.

RIDING HAND
- PALM UP -

3".....	SIZE 7
3 1/8".....	7 1/2
3 1/4".....	8
3 3/8".....	8 1/2
3 1/2".....	9
3 5/8".....	9 1/2
3 3/4".....	10
3 7/8".....	10 1/2
4".....	11

VEST SIZING CHART

Please observe the following instructions to ensure a proper fit when ordering a vest. To correctly measure the chest place a measuring tape around the upper torso between the underarms and nipples, note the largest measurement. The abdomen measurement is obtained by placing the measuring tape around the lower torso so that it crosses the navel. If possible find out whether the user prefers a loose or tight fit. This information is helpful if the user's size falls close to a size limit, go up a size for a loose fit and down for a tight fit.

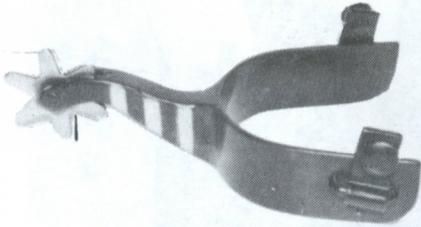

The user's abdomen measurement is the most critical. The vest narrows at the abdomen, with the only adjustment being for cinching, not expanding. Therefore, the user's abdomen must be smaller than the maximum abdomen size, when selecting a vest. The break-away shoulders permit more adjustment in the chest, allowing the user to wear a larger chest size.

Small Youth	----	generally up to age 14, maximum chest size - 31 inches - maximum abdomen - 27 inches
Youth	----	generally up to age 14, maximum chest size - 33 inches - maximum abdomen - 29 inches
Extra Small	----	maximum chest size - 35 inches - maximum abdomen - 31 inches (special order only)
Small	----	maximum chest size - 37 inches - maximum abdomen - 33 inches
Medium	----	maximum chest size - 39 inches - maximum abdomen - 35 inches
Large	----	maximum chest size - 41 inches - maximum abdomen - 37 inches
Extra Large	----	maximum chest size - 43 inches - maximum abdomen - 39 inches (special order only)
XX Large	----	maximum chest size - 45 inches - maximum abdomen - 41 inches (special order only)
